

## Revised and Additional Maps for the Delta Plan

---

**Summary: Figure 5-1 and the maps in Appendix K have been revised to clearly show the areas described in DP P1, Locate New Development Wisely. Six new maps have been added to Appendix K to show land use designations in greater detail. Figure 1-3 and Figure 7-5 have been revised to be consistent with Figure 5-1.**

---

The maps in Appendix K provide detailed information regarding land use designations to further clarify the application of DP P1, Locate New Development Wisely. New maps associated with specific Delta cities and their spheres of influence have been added to Appendix K. Within cities' spheres of influence, the maps show land use designations proposed in city general plans, where available. In cases where cities have not proposed land uses within their spheres of influence, the map shows land uses designated by county general plans.

The attached map of the City of Rio Vista (Figure K-13) is a replacement for Figure K-7 in the September 5, 2012 draft. The map for the Town of Knightsen (Figure K-8 in the September 5, 2012 draft) will be re-numbered as Figure K-7.
